Archanai — Pilot Guide for Testers

Site: https://archanai.vercel.appSMARTPANTS_PRESERVED_8 · **Feedback:** gigarthub.team@gmail.com

Archanai helps families in South India find and book a verified priest for home ceremonies. It is a pilot: **there is no online payment**. The family and the priest settle the amount directly.

What the app contains

- **Find a priest:** browse by city, ceremony, tradition, language, date, rating, price, experience, gender, samagri included, travels outside city.
- **Cities:** Chennai, Bangalore, Hyderabad, Cochin, Amaravati.
- **Ceremonies:** Griha Pravesh, Satyanarayan Puja, Namakarana, Upanayanam, Seemantham / Valaikappu, Annaprashana.
- **Booking request:** the family picks a ceremony, a date and time the priest is free, an address and family details. The priest accepts or declines.
- **After acceptance:** phone numbers are shared both ways and the family gets a samagri checklist by email.
- **Manage:** reschedule (twice at most), cancel, review after the ceremony, save favourite priests, in-app bell and email notifications.
- **Priest side:** profile, per-ceremony price and note, weekly hours, blocked dates, dashboard, earnings log.
- **Sign in:** email link, no password. Check spam if the email is slow.

Families: what to try

1. Sign in, then browse `/browse`. Try several filters.
2. Open a priest and read their ceremonies, prices and notes.
3. Book a ceremony at least 1 day ahead.
4. Check the “request sent” email and the booking page.
5. After the priest accepts, check you can see their phone and received the samagri checklist.

6. Try reschedule and cancel on a spare booking.
7. After the ceremony, leave a review. Save a priest as a favourite.

Tell us: Could you find the right priest quickly? Which filter was missing? Was anything unclear or slow? Did the emails and notifications arrive (and where)? Would you actually use this for a real ceremony? What would stop you?

Priests: what to try

1. Register at `/priest/register` (2–3 minutes). Verification is a phone call from the team.
2. Complete the profile: photo, languages, cities, price and a note for each ceremony, weekly hours. Documents are optional.
3. Once approved, check the dashboard. Accept or decline a request, and mark a ceremony complete with the amount you received.
4. Block a date on the calendar and confirm families cannot book it.
5. Check the earnings page.

Tell us: Was registration clear? Is anything missing from the profile? Do you get requests in time? Is the one-booking-per-day limit right for you? Were the emails and phone numbers correct? Would you take real bookings this way?

What we are evaluating

Question	Signal
Do families find a suitable priest?	Searches that end in a booking request
Do priests respond?	Share accepted before the 48-hour expiry
Does the flow work end to end?	Requests → accepted → completed
Is it trusted?	Willingness to share phone and address; review quality
What is missing?	Repeated feature asks

Known pilot limits

English only. Email and in-app alerts only (no WhatsApp or SMS). No online payment. Emails may land in spam. Requests unanswered for 48 hours expire automatically. Please report any bug with a screenshot and what you clicked.
